

AIA: Concrete Polishing: A Sustainable Flooring Option

Program #: 2P0908

Credits: 1 LU

HSW: Yes

Length: Maximum 1 hour

Description:

The program examines the latest techniques and trends that have emerged in the decorative concrete flooring industry; focusing specifically on the sustainable finishing option of polished concrete. The program highlights the growing popularity of polished concrete and explores the application process, coloration options available, and benefits that have propelled concrete polishing into a multi-billion dollar industry.

Learning Objectives:

By the end of your AIA presentation, the participants should be able to:

- Understand concrete polishing process and procedure.
- Identify colored concrete flooring options
- Understand concrete flooring construction & maintenance. Recognize 4 principals of concrete mixing.
- Compare benefits of utilizing concrete over other flooring/paving options
